Grass Harrows

Trailed Grass Harrows
Mounted Grass Harrows

Scarifying has long since been regarded as one of the most efficient ways of promoting grass growth. Scarifying the soil around the grass, pulling out weeds, moss, aerating the soil, breaking up sods and surface crusting, improving moisture and herbicide absorption resulting in stimulation of new grass growth reducing the need for chemical fertiliser.

Trailed Grass Harrows

- Root aeration; for better water infiltration and growth
- Pasture renovation; breaking up and levelling heavy soil
- Stimulates growth by aerating and loosening thatch
- Excellent for ripping out moss, spreading manure, and levelling mole hills
- Works in fertiliser to both spread and maximise effectiveness
- Surface levelling in equestrian centres, race tracks, and running tracks
- Strong robust design ensures long life and minimum maintenance

Code	GH4	GH6	GH8	GH10	GHL12
Width	1.2m	1.8m	2.5m	3m	3.7m
Length	2m	2m	2m	2m	2m
Tine Length	64mm x 13mm	64mm x 13mm	64mm x 13mm	64mm x 13mm	64mm x 13mm
HP	15	25-30	30-45	30-50	50-65
Mat Weight	50kg	75kg	100kg	125kg	150kg

Mounted Grass Harrows

- Our harrows are designed to pull at a 5 degree angle so that the ground is completely covered and tracking does not happen.
- Our range of harrows are designed to cover all applications from large farms to small holding and equestrian venues.
- Folding is a simple one man operation taking only seconds.
